

RETAIL SALES ANALYSIS

Professional Summary Report | Based on the Excel PivotTable Dashboard

TOTAL SALES	TOTAL PROFIT	TOTAL QUANTITY
1,789,415.38	453,870.44	18,348

Executive Overview

The retail dataset records 1.79M in total sales, 453.87K in total profit, and 18,348 units sold. The dashboard organizes performance by category, region, and month to make the main business patterns easier to identify.

Area	Key finding
Category	Books generated the highest sales (370,971.87) and the highest profit (92,304.45).
Region	South recorded the highest sales (469,471.28), while West recorded the highest profit (122,517.78).
Month	July was the strongest sales month at 162,111.12; May recorded the highest profit at 40,527.69.
Data quality	An Unknown category/region appears in the PivotTables and should be reviewed before final business decisions.

Business Takeaways

- Prioritize the South region as the strongest-performing market in sales and investigate what drives its results.
- Maintain and strengthen the Books category while checking opportunities in Electronics and Sports.
- Use the monthly trend to plan inventory and promotions around stronger periods, especially July.
- Clean or classify the Unknown records so future analysis is more accurate.

PERFORMANCE BY CATEGORY & REGION

The charts below provide a visual comparison of sales, profit and quantity across the main dimensions.

Category Highlights

Category	Sales	Profit	Quantity
Books	370,971.87	92,304.45	3,737
Electronics	365,088.14	90,439.70	3,595
Clothing	350,981.82	90,082.12	3,641
Home Goods	347,493.83	87,447.82	3,777
Sports	347,682.79	92,065.22	3,542

Regional insight: South leads the business with 469,471.28 in sales, while West records the highest profit at 122,517.78. The Unknown region is very small and should be investigated for data completeness.

MONTHLY SALES & PROFIT ANALYSIS

Monthly performance for 2023, using the PivotTable values shown in the Excel dashboard.

Metric	Best month	Value
Sales	July	162,111.12
Profit	May	40,527.69

CONCLUSION

Overall, the retail business shows solid performance, with South recording the highest sales and West recording the highest profit. Books lead the categories by sales, while monthly results fluctuate throughout the year, with July showing the highest sales and May the highest profit. The next step should be to investigate the drivers behind the strongest segments, replicate successful practices in weaker areas, and clean the Unknown records to improve the reliability of future analysis.
